H(1)(A)

ELIGIBILITY AND SCHEDULE OF CLASSES

1. This classification should apply to competitions for large, medium and small dogs.

2. In the following definitions of classes First Prize or other prize wins are those gained in standard classes at any Kennel Club licensed Championship Agility, Premier Agility, Open Agility or Limited Agility Shows (i.e. special classes and invitational events are excepted). Only a first place with a clear round completed within the course time set by the judge will count towards grade progression.

3. Societies may if they so wish limit the number of classes a dog may enter.

4. Standard classes may be scheduled for Agility Shows, as Agility classes or Jumping classes. All standard classes must contain the Weaving Poles obstacle. Standard Agility classes must contain the following elements: "A Ramp", Dog Walk and See-Saw. In the event of mitigating circumstances (i.e. adverse weather conditions) at a show a Judge, with the full agreement of the Competition Manager, may omit an item of compulsory equipment as deemed appropriate at the time. Any omission from the equipment must be reported by the show management to the Kennel Club within 14 days of the date of the show. With this proviso classes are defined as follows:

5. Class Structure. A Class may either be held as a Graded Class or a Combined Class. A Graded Class may be scheduled for one or more consecutive Grades with separate results and awards issued for each grade. The eligibility for a Graded Class is detailed below. A Combined Class may be scheduled for more than one consecutive grade with one overall set of results. A Combined Class is open to any combination of dog and handler that qualifies for any of the Grades in that class.

6. Progression. Progression from each Grade will require one Agility win or three Jumping wins in standard classes at that grade, except that progression from Grade 5 will require 3 wins at Grade 5, one of which must be an agility class. Progression from Grade 6 will require 4 wins at Grade 6, two of which must be agility classes. Results from Combined Classes will only count towards progression from the dog's current grade.

7. Points Progression. At the handler's discretion a dog may progress up to Grade 4 by winning 100 points at each grade, using the Agility Warrant points scheme, Regulation K3.c refers, except that there is no requirement for a minimum number of agility points. If this method of progression is selected, the handler must ensure the Show Secretary signs the dog's Agility Record Book at the first show entered at the higher grade. There is no time limit on this progression, however, once a dog has progressed, it cannot return to a previous grade.

8. STANDARD CLASSES

Only first prizes and points gained in standard classes at Kennel Club licensed Agility Shows may be used for progression through the classes. (A dog is only eligible for one grade). In defining the eligibility of the owner or handler for Grade 1, the three jumping wins and points progression referred to in the definition apply only to one dog and not an accumulation of dogs.

 - (2) In the event that these dogs are still equal the dog with the fastest combined time takes the higher place.

10. Special Classes.

- a. At all types of Agility show Societies may schedule classes other than those defined above, as "special" classes. The eligibility for special classes must be defined by the society and included in the schedule. The word "special" must be included in the title of the class.
- b. Where special classes are classified for older and/or inexperienced dogs, the height of the hurdles and the A-ramp, and the length of the long jump, may be reduced below the dimensions specified in these regulations, in which case such dimensions must be included in the class definition in the show schedule.

Capping levels may not be adjusted downwards after publication of the schedule except with the prior permission of the General Committee of the Kennel Club.
- f. Where total entries received exceed a capping level, entries must be processed in the order received. Processing of entry forms, and of online entries where applicable, must be managed so that the date of receipt of

H(1)(A)

- each entry is recorded. (It is permissible to set different opening and closing dates for online entries from those applying to postal entries.)
- g. Entry fees for entries which are received after the capping level has been exceeded must be refunded in full.
 - h. Entry forms must allow competitors to specify, if their entry for any capped class is declined because the capping level has been reached:-
 - (i) that they wish the dog to remain entered in all other classes, or
 - (ii) that they wish their entire entry for the dog in question to be cancelled, or
 - (iii) that they wish their entire entry for all dogs they have entered at the show to be cancelledIn such cases the relevant entry fees must be refunded in full.
 - i. Notifications under Regulation H11.g. (dogs which have progressed to the next grade) must be processed in order of the date of receipt of the notification.

Whenever possible the timing gates should be placed within the width of the Hurdle wings, or in the case of the Wall, within the pillars. For the Long Jump, Tyre, Wishing Well and Pipe Tunnel, the timing gates should be placed as close as possible to the outside edge of the obstacle without impeding the dog’s natural path.
N.B. This regulation should also apply if manual timing is used in conjunction with start/finish poles.

4. Height Classification of Dogs

- (1) The provisions of sub-paragraphs (2) to (14) below shall not apply to dogs competing only in special classes at Limited Agility shows.
- (2) Dogs competing in small or medium height categories must be measured for competition. Competitors must ensure that their dog is measured prior to their first competition and that the dog's Agility Record Book has been signed and dated by the measuring officials.
- (3) Large dogs entered for competition must be measured before they compete at their first agility show, if they have not competed prior to 1 January 2006. Dogs must be a minimum of 15 months old before the first official measurement takes place. Dogs that are, in the official measurers' opinion, obviously over 430mm (1ft 5ins) prior to reaching 15 months of age can be measured. (Dogs incapable of being measured at the time they are presented to the measuring officials will not be eligible for competition until such time that the official measurement has been successfully carried out.)
- (4) A second measurement must be carried out on the dog between 12 and 24 months after the first unless the dog is obviously over 430mm (1ft 5ins), in which case the official measurers can strike out the second measurement in the Agility Record Book. The dog cannot be reclassified into the lower height category retrospectively if the second measurement is not taken up within the 24 month period. If the second measurement places the dog in the same height category as the first, this will be the final measurement. However, if the second measurement places the dog in a different category then a third measurement must be carried out within two calendar months by two measurers, both of whom must not have measured the dog on a previous occasion. The dog's height category will be that confirmed by two out of the three measurements. The dog should compete in the original height category until the final decision has been made.
- (5) The dog's signed Agility Record Book must be available for inspection by the Show Management and/or the Judge on the date of any competition entered by the owner/handler.
- (6) The Kennel Club will nominate officials authorised to measure dogs for competition and to sign the Agility Record Book. The record book must be notated 'small', 'medium' or 'large' as determined by the official measurement.
- (7) Two authorised officials must carry out the measurement together and must use a measuring device approved by the Kennel Club.
- (8) Measurement must be carried out on a level and even surface, in a quiet place, separate from other dogs and handlers.
- (9) Measurement of the dog's height will be taken from the ground to the highest point of the withers. The dog must be standing squarely with all four legs on the ground, neither stretched nor crouched. The dog's head should

- be in a natural position.
- (10) Measuring devices will be of a fixed 'hoop' type and must be of a type approved by the Kennel Club. A separate measuring device is required for measuring each of small or medium/large dogs.
 - (11) Dogs presented for measurement should be wearing a collar and must be under the control of the owner/handler. Dogs presented for measurement that cannot be controlled by the owner/handler will not be measured. Where a dog is known to have a microchip or ear tattoo this form of identification should take precedence over a photograph and should be used to confirm the identity of the dog. If these types of identification are not available, a clear identifiable photograph must be used.
 - (12) A dog will be eligible to compete in small or medium height categories only after the official measurement has been carried out. Where a dog is measured out of the height category in which it has been entered it is permissible, at the discretion of the organising club, for entries to be altered in order that the dog can compete at the correct height category.
 - (13) If, at the time of the second official measurement, a dog is found to be eligible for a different height category than originally attested to, awards received at licensed shows up to the date of the second measurement will stand.
 - (14) In the event of a dispute over the measuring procedure the Kennel Club will evaluate whether there are grounds for appeal. The owner/handler of the dog may appeal in writing to the Kennel Club, but must do so within seven days of the disputed measure having taken place. Any appeal must be accompanied by a written statement from the owner/handler of the dog with a brief description as to the ground for the appeal and must be accompanied by the appropriate fee.

5. Marking.

- a. Standard marking.

All course faults in multiples of 5. For time faults see paragraph b below.

- (1) Table/Pause Box—faulted at judges discretion.
